Red-Necked Pademelon, 420gram, 17/01/2010

540gram 8/02/2010

Wombaroo 07, Spending time out of pouch browsing

last night joey was in pen **eyes staring, shaking and unable to stand properly**. I put him back in pouch, and he drank small amount of bottle. Seemed like he was in some kind of shock, all other joeys were relaxed.

600gram 18/02/2010 .

700gram 23/02/2010

Spending good time out of pouch, hopping in and out by himself drinking water

Similar episode again as on 8th, joey seems to be in shock, but recovers within a few hours, no other joeys are stressed at that time???

16/03/2010

At 1am feed **joey was in pouch eyes wide open, heart razing, shaking and fitting at intervals**.

Sedated with 0.25 Pamlin, kept inside overnight. Total recovery by morning.

Released as of 01/06/2010
